

Indexable and Carbide Tipped

Port Tooling

SAEJ1926 / AS5202
in stock / now available

See back for
complete carbide
tipped offering.

Carbide Tipped Port Tooling

- Coolant thru
- Center ground within .0002" concentricity
- Large number of stock standard sizes
- Three helical flute design for superior finish, chip evacuation and stable cutting forces

Indexable Port Tooling (SAEJ1926 stock)

- Coolant thru standard
- Economical
- ISO standard carbide inserts and single form insert
- Available in multiple grades
- Run at coated carbide speeds

Custom Port Tooling

- Quick quote and delivery
- Designed utilizing ISO standard carbide inserts
- Custom form inserts designed as needed
- Combine operations - reducing set-up and cycle times

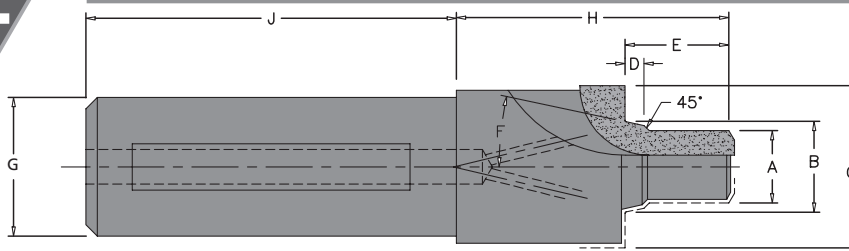

Your single source for indexable, carbide tipped and custom tools.
