

SAY GOOD-BYE TO LIFT!

The
Ultimate
5-Axis
Solution

Jergens **5-Axis Vises** and **Quick Change Solutions** provide a modular and configurable approach to optimal holding and positioning of components of various sizes and shapes.

5-AXIS VISES

Jergens 5-Axis Self-Centering Vises are engineered to be the ideal solution for low-profile 5-axis workholding.

Quick-change jaws incorporate a pull down feature to **actively minimize jaw lift!**

**75mm 5-Axis
Self-Centering Vise**

Available in short or long base.

**130mm 5-Axis
Self-Centering Vise**

Available in short or long base.

**130mm 5-Axis
Hydraulic
Self-Centering Vise**
